PROFESSIONAL SUMMARY

Newly graduated, aspiring MERN Stack Developer with a solid foundation in JavaScript, and hands-on experience with MongoDB, Express.js, React.js, and Node.js gained through academic projects and personal study. Adept at learning new technologies and applying them to solve problems. Passionate about coding and committed to developing user-centric applications with a focus on functionality and user experience. Looking to bring fresh perspectives and innovative ideas to a dynamic development team where I can further develop my skills and contribute to meaningful projects

EXPERIENCE

Projects

Online Bookstore Platform: Designed and implemented a web application to manage book sales, user accounts, and payment processing as part of a team project.

Task Management System: Developed a task tracking tool with user authentication, allowing users to set, update, and monitor personal tasks.
